RECENT ACTIVITIES

Significant Investments and Realisations

US Micro-cap Investments – Co-investments

In October 2017, JZCP rolled approximately \$4.2 million of proceeds from the K2 Towers realisation into K2 Towers II, a new vehicle which is being used to fund a new portfolio of cell tower assets with the same management partners.

Real Estate Investments

In the three-month period ended 30 November 2017, JZCP invested a total of \$4.0 million in follow-on investments in our Williamsburg, Greenpoint, Design District and Wynwood assemblages.

Realisations

Nielsen-Kellerman (“NK”)

JZCP received proceeds of \$8.6 million from the sale of NK, a designer, manufacturer and distributor of rugged, waterproof environmental and sports performance instruments for active lifestyles and technical applications. NK’s sale represents a 3.3x realised gross multiple on invested capital and a 19.2% realised gross IRR. JZCP first invested in NK in March 2010.

K2 Towers (“K2”)

JZCP expects to receive total proceeds of \$31.3 million from the sale of K2 to one of the largest publicly traded cell tower companies, representing an overall gross multiple of invested capital of 1.5x and a gross internal rate of return of 17.6% in just over two years.

Approximately \$4.2 million of these proceeds were re-invested into a new vehicle which is being used to fund a new portfolio of cell tower assets with the same management partners. This transaction provides liquidity to JZCP at an attractive valuation while continuing to build a great cell tower portfolio with further upside.

Factor Energia (“Factor”)

Finally, JZCP realised, at approximately net asset value, its majority equity interest in Factor held through EuroMicrocap Fund-C, L.P. Post-sale, Factor will be majority owned by an affiliate of a major North American public pension fund. As part of this transaction, JZI Fund III, L.P., in which JZCP is an approximately 18.8% limited partner, has agreed to invest €20 million alongside the majority owner and Factor management, representing approximately 25% of the business’ fully diluted equity ownership.

JZCP invested a total of approximately €7.6 million (\$9.6 million) in Factor and is expected to receive total gross proceeds (before carry) of approximately €69.7 million (\$82.3 million) from the sale (including deferred payments and interim distributions received over the course of the investment), representing an approximate gross multiple of invested capital of 9.2x and an approximate gross IRR of 42.3% in euro-denominated terms.

Post-period, JZCP received its first distribution of proceeds from the November 2017 sale of Factor Energia, totaling \$54.7 million (net of carry)
